**Sight Event
Cappadocia - UNESCO Heritage Site**

If any team would like to visit Cappadocia, OC will organize if there will be enough number of visitors team.

The Cappadocian region is a place where nature and history come together with the most beautiful scenery in the world.

Cappadocia is the ancient name of a large region in the center of Anatolia, although when we speak of Cappadocia today we refer specifically to the valleys of Goreme and Urgup, with their natural pinnacles and rock churches. In this survey of Cappadocia's historical geography, the region will be examined in its entirety.

While geographic events formed peribacaları (fairy chimneys) during the historical period, humans used the signs of thousand-years-old civilizations by carving houses and churches within these earth pillars and decorating them with friezes.

Traditional Cappadocian houses and dovecotes carved into the stone show the uniqueness of the region. These houses are constructed at the foot of the mountain using rocks or cut stone.
