Course description							
<p>A short steep drop after the startgate leads into a short and sharp take off to a short butter and again to a short and steep drop (reaction time) followed by a short and steep take off with medium landing. Then a medium step down with long landing is followed by a medium roller and a medium kicker. As next a dragons pack with 5 rollers is followed by two medium doubles, slight turn to the right and a big jump with long landing. After a mallow compression a medium double leads into a double up (INT 1 before the first roller) and a double down. The next small negative turn to the left is followed by a medium kicker with long landing and a banked turn to the right with a roller at the end of the turn. In the following straight a roller leads to a medium double into the next slightly banked turn to the right. Then a roller is followed by a short and sharp take of to a medium butter (INT 2 end of butter) and a big step down. Slight turn to the right then leads to a small double with long landing and a medium step up jump. After the landing a turn to the left leads to a big negative to the left and another negative turn to the right. The negative turn to the right is followed by a big bank to the left and long inrun to the final big jump (ICR 4512.1 in the take off) with long landing and the finish line. The finish area is 70 meters long, the exit is on the riders right site.</p>
